## Skills

---

**Languages:** HTML5, CSS3, JavaScript, C++, C, SQL

**Frameworks & Libraries:** React.js, Redux Toolkit, Node.js, Express.js, jQuery, Bootstrap,

**Databases:** MongoDB, MySQL,

**Concepts & Methodologies:** REST APIs, Object-Oriented Programming (OOP), Data Structures and Algorithms

**Technologies & Tools:** Jira, Visual Studio Code, ReactJS, Postman,

## Work Experience

---

**InventOnUs Tech Private Ltd**

Feb 2025 – Present

**Product Developer Intern**

**ISMS Percep Application**

*(Compliance Certification Platform for ISO 27001, HIPAA, etc.)*

- Developed and maintained full-stack features using **MERN stack** for a compliance management platform supporting ISO 27001 and HIPAA certifications.
- Built secure **role-based access control**, RESTful APIs, and real-time notifications with **JWT**, **Express.js**.
- Designed responsive **React.js dashboards** with **D3.js** sunburst charts to visualize audit and compliance status effectively.
- Integrated secure document upload and evidence tracking modules using **MongoDB GridFS**, ensuring efficient compliance workflows.

**IT Education Centre, Pune**

June 2024 – Jan 2025

**Intern**

Completed 8-month internship focused on MERN stack development

- Trained in backend development using Node.js and Express
- Developed frontend applications using React.js
- Collaborated on projects integrating MongoDB for database management

## Education

---

**Savitribai Phule Pune University**

Jul 2020 - May 2024

B.E. in Electronics and Computer Science Engineering

CGPA: 7.67/10

*Relevant Coursework:* Object-Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Image Processing

**Vivekanand College, Kolhapur**

Jul 2018 – Mar 2020

Science PCM

Percentage: 72%

## Project Work

---

- Real-Time Chat Application:** Created a responsive chat app using React, Node.js, MongoDB, and Socket.io, enabling real-time messaging between users.
- Secure Authentication System:** Developed a web-based authentication system with Express.js and MongoDB implementing secure user sign-up, login, password hashing with bcrypt, and JWT session management.
- Crud User Management System:** A CRUD User Management System efficiently handles user data, allowing creation, reading, updating, and deletion of user accounts with streamlined, user-friendly operations.

## Awards and Certificates
