## Skills

**Languages:** HTML5, CSS3, JavaScript, C++, C, SQL

**Frameworks & Libraries:** React.js, Redux Toolkit, Node.js, Express.js, jQuery, Bootstrap

**Databases:** MongoDB, MySQL,

**Other Skills:** Data Structures and Algorithms, Git, Object-Oriented Programming (OOP), REST APIs

**Technologies & Tools:** Visual Studio Code, ReactJS, Postman, Jira

## Work Experience

### InventOnUs Tech Private Ltd

Feb 2025 – Present

#### Product Developer Intern

- Collaborated with cross-functional teams to design and develop scalable web applications using **React.js** and **Node.js**.
- Optimized front-end performance by reducing page load times and enhancing API efficiency.
- Conducted debugging and code reviews to enhance application stability and maintainability.
- Worked on Jira tool to assign the tickets to team

### IT Education Centre, Pune

June 2024 – Jan 2025

#### Intern

Completed 8-month internship focused on MERN stack development

- Trained in backend development using Node.js and Express
- Developed frontend applications using React.js
- Collaborated on projects integrating MongoDB for database management

### YBI Foundation, Remote

Mar 2023 - Apr 2023

#### Intern

- Completed 1-month internship focused on data analytics
- Analyzed large datasets to identify trends and patterns

## Education

### Savitribai Phule Pune University

Jul 2020 - May 2024

B.E. in Electronics and Computer Science Engineering

CGPA: 7.67/10

*Relevant Coursework:* Object-Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Image Processing

### Vivekanand College, Kolhapur

Jul 2018 – Mar 2020

Science PCM

Percentage: 72%

## Project Work

- Weather App:** Developed a mobile application that provides real-time weather updates, forecasts, and severe weather alerts using data from reliable meteorological sources
- Real-Time Chat Application:** Created a responsive chat app using React, Node.js, MongoDB, and Socket.io, enabling real-time messaging between users.
- Secure Authentication System:** Developed a web-based authentication system with Express.js and MongoDB,

implementing secure user sign-up, login, password hashing with bcrypt, and JWT session management.

- **Crud User Management System:** A CRUD User Management System efficiently handles user data, allowing creation, reading, updating, and deletion of user accounts with streamlined, user-friendly operations.

## Awards and Certificates

---

- Full Stack Developer Course
- Full Stack Developer Bootcamp - Udemy
